Solve the problem of hard to produce and install

## ABOUT US

NOVO was founded in 2007, a high-tech enterprise group, who does research and development, manufacture, market and service independently, including two companies: Hong Kong NOVO Sunshade Technologies Co., Ltd. and Guangzhou NOVO Sunshade Technology Co. Ltd. NOVO is the pride of China's brands, always as the innovation leader from 2007. Now it is a leading brand of China's electric sun-shade, pursuing highest quality and being most innovative. Since the day of establishment, adhering to the "innovation first, quality first, price first" purpose, at the time that industry has become a trend of mimicry, NOVO insists on independent research and innovative business ideas, and has made brilliant R & D results, access to a range of national patents, with independent intellectual property rights. As the world's leading electric sunshade suppliers, NOVO provides competitive solutions and service for curtains, hollow glasses, office high compartment, smart home, roller shutter doors and windows, outdoor awnings and other 10 major industry enterprises and consumers, and helps customers succeed in their business.

NOVO provides enterprises and clients with at least 100 years excellent services
